# Optimism for the School Soccer Team

by Tomás Merino Ochagavía & Lucas Naudon

In an exclusive interview with Vicente Gil Díaz, a valuable member of our school's coaching staff, we gained insights into his outlook for the upcoming season and his aspirations for the future.

When asked about his perspective on the various categories of the school's soccer team this year, Mr. Gil expressed optimism. He noted improvements across the board compared to last year. "The mini team is showing great promise, while the fifth graders are highly motivated," he remarked. However, he acknowledged the challenges, particularly with the Junior category, where the eighth graders are relatively small this year. Despite this, he highlighted the strength of the intermedia team, emphasizing the growth of last year's first-year middle schoolers who now form a formidable second-year squad.

Mr. Gil also mentioned that with some minor adjustments and motivation, the superior team looks assured for success.

Regarding his role within the school and the school team, Mr. Gil emphasized continuity. "My role remains unchanged from last year; I continue to support Esteban Diaz and Manuel Halty across the different categories," he stated. This continuity ensures stability and a cohesive approach to coaching, benefiting the school team.

Vicente Gil Díaz's vision and determination are sure to inspire both players and fellow coaches alike as they embark on another exciting season filled with opportunities for growth and success.

Go Penguins!
